31<sup>st</sup>

May

11

In the County Commission of said county, on the

day of

20

the following, among other proceedings, were had, viz:

Now on this day the County Commission of the County of Boone does hereby **approve** the request of Millers, Inc. for a warehouse on 5.01 acres, located at 5925 S Hwy 63, Columbia, subject to the following condition:

- No outside storage permitted.

Done this 31<sup>st</sup> day of May, 2011.

ATTEST:

Wendy S. Noren  
Wendy S. Noren  
Clerk of the County Commission

Edward H. Robb

Edward H. Robb  
Presiding Commissioner

Karen M. Miller

Karen M. Miller  
District I Commissioner

Skip Elkin

Skip Elkin  
District II Commissioner

## **Miller Inc.**

The minutes for the Planning and Zoning Commission meeting of May 19, 2011 along with the Boone County Zoning Regulations and Subdivision Regulations are entered into the record of this meeting.

The subject property is 5925 Hwy 63 South, located on Ponderosa Street, near Meyer Industrial Drive and Bonne Femme Church Road, to the west of Highway 63. The property is 5.01 acres in size and was platted as lot 1 of Triple B Doors Subdivision. The property is zoned C-G (General Commercial), and it is original 1973 zoning. There is C-G zoning to the northwest, south, and east; M-LP (Planned Light Industrial) zoning to the north, A-1 (Agriculture) zoning to the west, and R-M (Residential Moderate Density) zoning to the north. The master plan identifies this property as being suitable for residential land uses.

The applicant is requesting a conditional use permit to operate a wholesale establishment or warehouse. There have been no prior requests on this property.

The following criteria are the standards for approval of a conditional use permit, followed by staff analysis of how this application may meet those standards. Staff analysis of the request is based upon the application and public comments received following notification of the surrounding property owners.

(a) The establishment, maintenance or operation of a conditional use permit will not be detrimental to or endanger the public health, safety, comfort or general welfare.

If operated in conformance with existing county regulations, the use should comply with this criterion.

(b) The conditional use permit will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted by these regulations.

The property is located in an existing commercial/industrial area. This use is low impact compared to other activities in the area. It should not be injurious to the use and enjoyment of other property in the immediate vicinity.

(c) The conditional use permit will not substantially diminish or impair property values of existing properties in the neighborhood.

If operated in conformance with existing county regulations, the use should comply with this criterion. Public testimony may be indicative as to whether this criterion is met.

(d) All necessary facilities will be available, including, but not limited to, utilities, roads, road access, and drainage.

The existing structure, while it may undergo remodeling, has sufficient facilities to serve this use. With direct access onto Ponderosa Road and limited need for utilities, the existing infrastructure should support this use.

(e) The establishment of a conditional use permit will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the zoning district.

The surrounding property is in varying states of development. To the north and east of the subject property, the area has developed in accord with the zoning, and any redevelopment will not be limited by the granting of this conditional use permit. To the south, the C-G zoning present will not be limited by this conditional use permit; it will be limited by the availability of infrastructure to support the desired use. To the west, the undeveloped agriculturally-zoned property serves as a buffer between the commercial/industrial activity on Ponderosa and the residential uses further west. Development of this area will likely come with additional infrastructure improvements, but the approval of this conditional use permit will not impede that development.

(f) The establishment of a conditional use permit will not hinder the flow of traffic or result in traffic congestion on the public streets. This will include the provision of points of access to the subject property.

This use should not generate more traffic than any of the surrounding uses. The warehousing activity should be able to be supported by the existing road infrastructure.

(g) The conditional use permit shall in all other respects conform to the applicable regulations of the zoning district in which it is located. The County Commission shall find that there is a public necessity for the conditional use permit.

The proposal conforms to other applicable regulations of the C-G zoning district.

The property scored 83 points on the rating system.

Staff recommends approval of the request with the following condition:

- 1) No outside storage to be permitted.

The Planning & Zoning Commission conducted a public hearing on this request during their May 19, 2011 regular meeting. There were seven members of the commission present, although one member recused himself from participating in the request.

Following the public hearing, a motion was made to recommend approval of the request with the staff condition of no outside storage. That motion received unanimous support from the members participating so the request comes forward with a recommendation for approval.

Term. 20 11

31<sup>st</sup>

May

11

In the County Commission of said county, on the

day of

20

the following, among other proceedings, were had, viz:

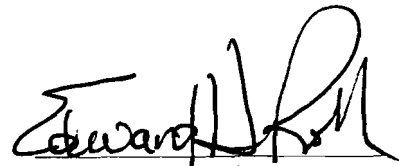

Now on this day the County Commission of the County of Boone does hereby **approve** the request by VH Properties LLC to approve a revised Review Plan for Boone West Planned Industrial Development on 21.51 acres, more or less, located at 5875 W Van Horn Tavern Rd., Columbia with the following condition:

- The fire lanes and fire protection requirements must satisfy the BCFPD on any building expansion and any waterline relocation must be made in conjunction with the water district at the developer's expense.

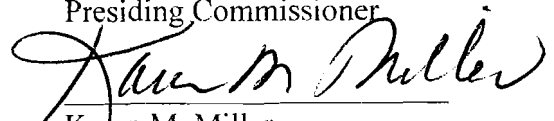

Done this 31<sup>st</sup> day of May, 2011.

ATTEST:

Wendy S. Noren  
Wendy S. Noren  
Clerk of the County Commission

Edward H. Robb  
Presiding Commissioner

Karen M. Miller  
District I Commissioner

Skip Elkin  
District II Commissioner

## **VH Properties**

This property is located on the north side of Van Horn Tavern Road and is bounded on the north by I-70, approximately 1000 feet west of the intersection with U.S. 40. The site is about 1 mile west of the Columbia municipal limits. The area proposed for the changes on the revised review plan was rezoned from C-GP (planned commercial) to M-LP (planned industrial) in 2010. The portion of the overall planned area that has proposed changes is contained on the 4.23 acres containing the former Columbia Public School building. The remainder of the area shown on the revised plan is comprised of three additional parcels that have all been rezoned at some point previously to M-LP. The entire area under the proposed revised review plan is 21.51 acres in total including the property with proposed revisions. This entire 21.51 acres is zoned M-LP. Property to the northwest across I-70 is zoned C-G (general commercial), north is zoned A-2 (agriculture), northeast is zoned A-R (agriculture-residential). Property to the east and south is zoned A-R and property to the west is zoned C-GP. All of the zonings with the exception of the M-LP and C-GP are original 1973 zonings.

The site of the revision is currently the location of a single building formerly used by the Columbia Public Schools as a maintenance facility. This structure was proposed to be removed and replaced by a new building; however, this new proposal would still allow this to happen but also allows for the remodeling and additions to the existing building potentially including second story areas. The property is located within the Boone Electric service area, the Columbia School District, and the Boone County Fire Protection District. Water service is provided by Consolidated Public Water District No.1. Hydrants are required for commercial structures such as that shown on the plan and any upgrade to waterlines to meet required fire flow will be at the developers cost. Sewer is currently provided by a collector wastewater system that serves the multiple buildings of the campus and is in the process of being upgraded so the facility can be turned over to BCRSD for operation and maintenance. Any new buildings will be required to hook up to the public sewer. The PID Plan proposes possible expansion areas of two other buildings on the campus but these were approved on the plan last year and are not new proposals. The list of Allowed Uses is the same as approved previously and the property already has been granted a CUP for the manufacture or assembly of metal or fiberglass products: such as firearms for the Battenfeld and Midway Arms buildings identified on the current plan. The Master Plan designates this area as suitable for commercial land use. The Master Plan promotes the use of Planned Districts as a means to establish new commercial and industrial areas. The property scored 80 points on the rating system. Staff notified 21 property owners concerning this request. Staff recommends approval of the Revised PID Review Plan subject to the following condition:

- The fire lanes and fire protection requirements must satisfy the BCFPD on any building expansion and any waterline relocation must be made in conjunction with the water district at the developer's expense.

The Planning & Zoning Commission conducted a public hearing on this request during their May 19, 2011 regular meeting. There were seven members of the commission present.

Following the public hearing, a motion was made to recommend approval of the request with the staff condition. That motion received unanimous support from the members participating so the request comes forward with a recommendation for approval.
