PROPERTY AND EQUIPMENT

- ▶ You must take a physical inventory of the property and reconcile the results with the property records at least once every 2 years.
- ▶ Loss, damage, or theft
 - You must have a control system in place with adequate safeguards to prevent these occurrences.
 - As the recipient or subrecipient, you must promptly and properly investigate any loss, damage, or theft.
 - You must establish and use adequate maintenance procedures to keep the property in good condition.
 - If authorized or required to sell the property, the recipient or subrecipient must establish proper sales procedures to ensure the highest possible return.
- If you are a State recipient, you must dispose of equipment acquired under your award in accordance with State laws and procedures. Other recipients and subrecipients must dispose of the equipment when original or replacement equipment acquired under the award or subaward is no longer needed for the original project. They are also required to dispose of equipment acquired under the award when the equipment will be used for other activities currently or previously supported by a Federal agency.
 - ▶ You must adhere to the following rules in equipment disposition:
 - ◆ If the item to be disposed of has a current per-unit fair market value of less than \$5,000, you may retain, sell, or otherwise dispose of it with no further obligation to the awarding agency.
 - ◆ If the item has a current per-unit fair market value of \$5,000 or more, you may retain and sell it, but the awarding agency will have a right to a specific dollar amount. Calculate this amount by multiplying the current market value or proceeds from the item sale by the awarding agency's share of the equipment. The seller is also eligible for sale costs.
 - ◆ In cases where you or your subrecipient fails to take appropriate disposition actions, the awarding agency may direct you to take other disposition actions.

Equipment and Nonexpendable Personal Property Acquired With Discretionary Funds

If you as recipient use discretionary funds to acquire equipment and nonexpendable personal property, the following standards and procedures govern ownership, use, management, and disposition of this type of equipment:

- When you use discretionary funds to acquire equipment and nonexpendable personal property, title settles on your organization, subject to the obligations and conditions set forth in [Title 28 CFR Part 66](#) for State and local units of government, and in [Title 28 CFR Part 70](#) for other recipients.

FINANCIAL MANAGEMENT TIP

Your organization should use its own capitalization policy for classification of a nonexpendable item. If your organization does not have capitalization policy in place, you must use the Federal policy that states that a nonexpendable item with a value of \$5,000 or more and a useful life of one year is considered equipment.

- A State should use equipment acquired under an award in accordance with State laws and procedures. Local government recipients should use equipment in accordance with the requirements contained in the section "[Equipment Acquired with Juvenile Justice Act Formula and Victims of Crime Act Assistance \(Formula\) Funds](#)."
- Other recipients should use nonexpendable personal property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds.

Below is an executive summary of information that may be helpful in your assessment of the request to transfer Chad Martin to his new position (Director, Boone County Joint Communications) above the authorized transfer salary. The authorized transfer salary is defined by policy as the FHR (Flexible Hiring Rate) for a new position or the employee's current salary, whichever is higher. (Here, the flexible hiring rate is \$85,779.) The new position Chad is taking involves a significant increase in responsibility and is 13 pay ranges higher than his prior position.

Chad Martin has worked for the County for over 19 years. His current position is Captain at the Boone County Sheriff's Department (Range 52) and his salary is \$72,904. In addition to his work at the Sheriff's Department, Chad also worked for 5 years as a Telecommunicator at Joint Communication and has been a volunteer firefighter for 25 years. He is well respected by his peers in the local emergency responder community and has demonstrated a superior work ethic. Chad also offers a unique command of the issues BCJC is currently facing due to his ongoing involvement in the ECC project and his role on committees dealing with technology and security issues in BCJC. This combination of skill and experience was not demonstrated by any other applicant for the Director position.

The requested transfer salary for Chad Martin is **\$92,904** (which is \$7,125 over the authorized transfer salary but \$8,918 below midpoint for pay range 65).

The pay range for Director, Boone County Joint Communications is 65.

- Minimum \$80,745
- FHR \$85,779
- Midpoint \$100,922
- Max \$121,098
