Household Disaster Plan

Creating a disaster plan with your household is one simple step you can take to be better prepared. Chances are you may not be at home or with members of your household when disaster strikes. It is important everyone knows the steps to take before, during and after a disaster. Complete this template with members of your household to begin the process. Remember to include information about the specific needs of your household, including pets. Your disaster plan should be updated as the needs, or location, of your household changes.

Household Address				
Address:			Apt:	
City:		State:		Zip:
Household Contact Information				
Name	Cell Phone	Work Phone	Email	
Pet Information				
Name	Type	Breed	Color	Registration #
Non-Household Emergency Contact Information				
Provide the contact information for a neighbor or other in-town contact below:				
Name:			Relationship:	
Address:			Apt:	
City:		State:		Zip:
Home Phone:		Cell Phone:		Work Phone:
Email Address:				
Provide the contact information for an out-of-town relative or friend below:				
Name:			Relationship:	
Address:			Apt:

Home Phone:		Cell Phone:		Work Phone:

Hazard Information

What Hazards are likely to affect your home?

- | | | |
|--|--|---|
| <input type="checkbox"/> Carbon Monoxide | <input type="checkbox"/> Flooding | <input type="checkbox"/> Severe Weather |
| <input type="checkbox"/> Earthquakes | <input type="checkbox"/> Gas Leak | <input type="checkbox"/> Tornado |
| <input type="checkbox"/> Fire | <input type="checkbox"/> Hazardous Materials Spill | <input type="checkbox"/> Utility Disruption |
| <input type="checkbox"/> Flash Flooding | <input type="checkbox"/> Nuclear Disaster | <input type="checkbox"/> Winter Weather |

Safety Equipment

Do you have safety equipment in the home?

- | | | |
|--|---|---|
| <input type="checkbox"/> Carbon monoxide detector(s)
<input type="checkbox"/> On each level of the home | <input type="checkbox"/> Near each bedroom | |
| <input type="checkbox"/> Fire Alarm(s)
<input type="checkbox"/> On each level of the home | <input type="checkbox"/> Near each bedroom | |
| <input type="checkbox"/> Disaster kit
<input type="checkbox"/> For your home | <input type="checkbox"/> For your vehicle | |
| <input type="checkbox"/> Fire Extinguisher(s)
<input type="checkbox"/> On each level of the home | <input type="checkbox"/> In all cooking areas | |
| <input type="checkbox"/> First Aid Kit(s) | <input type="checkbox"/> Generator(s) | <input type="checkbox"/> NOAA Weather Radio |

Evacuation Routes

Answer the questions below to describe the evacuation routes used to evacuate your home, your neighborhood **and** your city. Having a primary and secondary route from each location is preferable in case one becomes impassable. You will also want to identify a place where household members can meet for each location as well. Attach a map of identified evacuation routes and meeting locations to this plan.

What is the primary evacuation route from your home? Neighborhood? City?

What is an alternate route, if the first is impassable?

Where are your meeting places outside the home? Outside the neighborhood? Outside the City?

Shelter Information

Where is your tornado safe place?

During emergencies local authorities may direct you to "shelter in place" in your home. An accessible, safe room where you can seal windows, vents and doors and listen to emergency broadcasts for instructions, is:

Additional Information

Attach the following supplemental information to this plan:

- | | | |
|--|--|---|
| <input type="checkbox"/> Medical Information | <input type="checkbox"/> Insurance & Financial Information | <input type="checkbox"/> Additional Contact Information |
|--|--|---|
