# **Economic Support**

## **Department Number 1510**

#### **Mission**

This budget includes appropriations intended to promote local economic development. The County is not legally required to provide funding for these activities; however, the County Commission has voluntarily approved funding for several years.

#### **Budget Highlights**

The budget includes appropriations for the following:

- Downtown Business District: Promotes economic activity by funding community events and holiday festivities sponsored by the Downtown Business District; the requested amount is intended to approximate lost tax revenue to the District attributable to land within the district that is owned by the County.
- **Regional Economic Development, Inc. (REDI):** Promotes economic expansion and growth in Boone County.
- **Centralia Chamber of Commerce:** Promotes economic expansion and growth in Centralia.
- **Show Me Games**: Promotes participation in and expansion of the Olympicstyled, statewide multi-sport program that is held each year in Boone County.

## **Parks and Recreation**

## **Department Number 1610**

#### **Mission**

The Boone County Commission created the Parkland Study Committee in September 1990. The Committee was formed to advise the County Commission on matters relating to the acquisition and development of parks and recreation facilities. Planning and Zoning Operations (department number 1710) continues to provide support services for the Committee and the County Commission until a full-time Parks and Recreation staff is warranted. It appears that the need for full-time staff is still several years away.

### **Budget Highlights**

Prior to 1997, this budget accounted for appropriations related to the acquisition and improvement of the County-owned portion of the MKT trail. Since 1998, this budget reflects only maintenance appropriations related to County-owned parkland.

County-owned parkland includes the County's section of the MKT trail and the El Chaparral subdivision park.

There are no significant changes to this budget.

# **Planning and Zoning**

## **Department Number 1710**

#### **Mission**

The Planning and Zoning Operations Department serves as staff to the County Commission on matters dealing with land-use. This includes the application and enforcement of zoning regulations and subdivision regulations. The Department also provides staff support to the Planning and Zoning Commission and Zoning Board of Adjustment. The Department provides information and assistance to the general public on all land-use related matters.

#### **Budget Highlights**

The budget includes a \$15,000 professional services appropriation, intended to address the periodic need for additional planning services related to specific large-scale projects. Other than this, there are no significant changes to this budget.

#### **Goals and Objectives**

#### **Budget Year Objectives**

- Provide quality, timely service to clients by making information as widely available as possible.
- Encourage development that has minimal impact on surrounding sites and the environment.
- Encourage development in areas that are logical extensions of existing development while discouraging sprawl or the premature development of areas lacking adequate infrastructure to support them.

#### **Progress on Prior Year Objectives**

■ Provide quality, timely service to clients by making information as widely available as possible.

**Response:** Planning and Zoning has responded to numerous requests for information regarding zoning and subdivision regulations during the past year. Work with realtors, engineers, surveyors, developers, other units of government and private citizens continues on a daily basis. The addition of a staff planner in 2005 has enhanced the ability of the department in this regard.

■ Continue to work with the Storm Water Task Force and the Public Works
Department to develop appropriate regulations for the unincorporated parts of
Boone County.

**Response:** The Storm Water Task Force has recommended that Boone County adopt regulations requiring that a land disturbance permit be obtained when one acre or more of land is disturbed. The Public Works Department and the Planning and Building Inspections Department have separate responsibilities outlined in the regulations.

- Review existing conditions in an effort to anticipate development impacts of several large scale developments proposed for the City of Columbia on nearby properties.
  - **Response:** Existing infrastructure has been evaluated in the area of several large developments. Additional infrastructure is being provided by the City of Columbia and the University of Missouri to accommodate the projected growth.
- Review the County land use master plan and look at the Highway 63 corridor. **Response:** A subcommittee of the Planning and Zoning Commission reviewed the county master plan. While the review indicated that many sections of the master plan are still current; those that need updating were identified. The County Commission has asked staff to review the report prepared by the Planning and Zoning Commission and determine which areas can be updated by the staff, and which areas will require assistance from an outside source.

#### **Performance Measures**

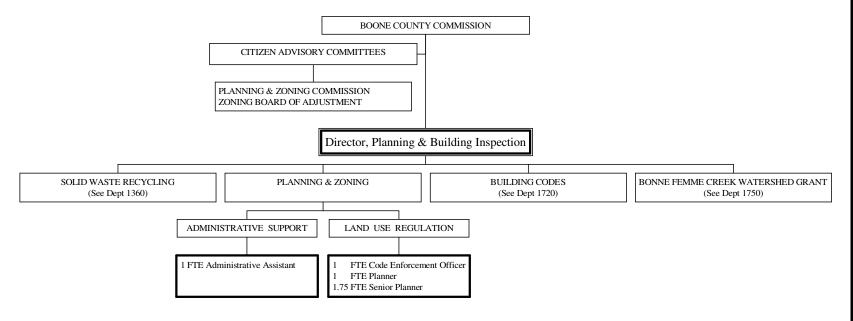

Performance Measure	2005	2006	2007

# **Building Codes**

## **Department Number 1720**

#### **Mission**

The Building Codes Department is responsible for inspecting new construction. The inspections include reviewing footings, under-floor plumbing, framing, electrical wiring, plumbing, insulation, and final inspection. The Department also inspects mobile homes for compliance with electric code, location and set-up requirements. The Department works closely with architects, engineers, contractors, and the general public providing information regarding construction standards and code requirements prior to and during construction.

### **Budget Highlights**

The FY 2006 and 2007 budgets include funding (in Contingency, see department number 1123) for the equipment and other costs required to implement mobile office technology for Building Inspectors. The scope of the appropriation is for one pilot installation which will allow the department to fully evaluate the benefit of department-wide implementation.

The budget also includes funding to replace a pick-up and to purchase new code software. Other than these items, there are no significant changes to this budget.

#### **Goals and Objectives**

#### **Budget Year Objectives**

- Provide code information and inspection services on a timely basis.
- Provide inspections that are consistent and fair.
- Complete plan reviews for commercial projects within three weeks of submission.

#### **Progress on Prior Year Objectives**

- Provide code information and inspection services within four hours of receipt of inspection request.
  - **Response:** For scheduling reasons, the "four hours notice" policy has been changed to "morning or afternoon" inspections. Both staff and contractors have found this to be a more realistic reflection of the ability to meet inspection requests in a timely manner.
- Address concerns about consistency and fairness in the inspection process. **Response:** Staff meets monthly with representatives of the Home Builders Association to discuss inspection concerns. Staff meets on a weekly basis to specifically address concerns, observations and process. Consistency has improved markedly. Staff has also been involved in review of the new building code. The review process has involved many representatives of the construction trades, which has fostered open discussion and an on-going dialogue that benefits all parties.

## **Building Codes**

■ Complete plan reviews within three weeks of submission. **Response:** This objective has been met by training other inspectors to review construction plans.

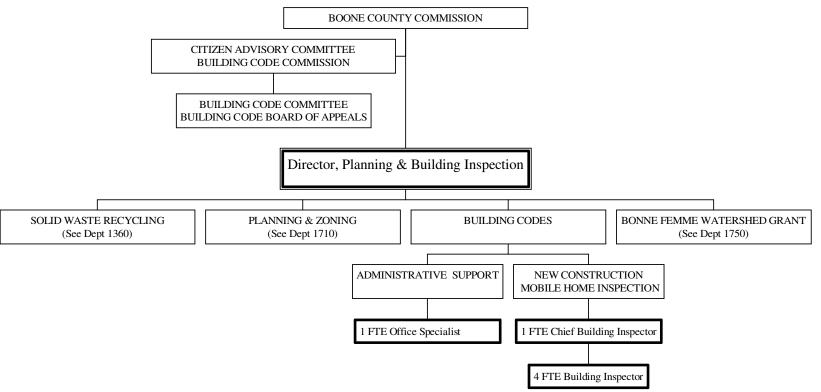

## **Performance Measures**

Performance Measure	2005	2006	2007

# **Animal Control**

## **Department Number 1730**

#### **Mission**

This budget includes appropriations for implementation of the County's animal control ordinance. The County does not operate its own department; instead, services are obtained through a contract with the Boone County/Columbia City Health Department.

#### **Budget Highlights**

The contract with the City of Columbia provides 2.0 FTE animal control officers (out of a total city staff of 6 officers) and .33 FTE clerical staff. The City of Columbia contracts with the Central Missouri Humane Society for detention and boarding services for the Animal Control program; the County pays 33% of the cost of this contract as well as 33% of all other operating costs. Increased budgetary costs are primarily due to increased payroll resulting from a salary study authorized by the City of Columbia.

## **On-Site Waste Water**

## **Department Number 1740**

#### **Mission**

The budget includes appropriations for the implementation and administration of the County's on-site wastewater ordinance. The regulations, enacted October 1992, monitor the design, construction, and modification of small on-site waste water systems. The regulations are enforced to protect public health and to prevent the entrance of diseases into the County by way of wastewater. The County administers the program through a contract with the Boone County/City Health Department.

### **Budget Highlights**

A review of cost allocation between the On-Site Waste Water program and Environmental Health (included in the Community Health budget, department number 1410), revealed that an adjustment was needed to better allocate costs. This adjustment resulted in a reduction to this budget and a corresponding increase to the Health Department budget. Other than this, there are no significant changes in this budget.

## **Bonne Femme Creek Watershed**

## **Department Number 1750**

#### **Mission**

The Director of Planning & Zoning and Building Codes is responsible for this budget. This budget accounts for grant revenues and expenditures for the Land-Use Planning and Water Quality Restoration Project in the Bonne Femme Creek Watershed. This four-year project is financed with a grant from the Missouri Department of Natural Resources (MoDNR) as well as in-kind match from Boone County and other local agencies.

Bonne Femme Watershed encompasses an area of 59,702 acres in southern Boone County in close proximity to the rapidly growing cities of Ashland and Columbia. This environmentally sensitive watershed contains several cave, stream, and park recreation opportunities. These areas have been affected by current levels of development and are attractive to increased urban growth. This project will address water pollution from leaky or non-maintained septic systems, sediment from construction, storm water runoff, as well as nutrient and herbicide pollutants in the Bonne Femme Creek Watershed.

The project consists of two phases. Phase I entails collecting and analyzing data and drafting a watershed management plan. It also includes educational and outreach activities. Phase II is intended to protect and improve the watershed by providing technical and financial assistance to developers, builders and property owners; developing and implementing Best Management Practices (BMP); developing scientifically-based land-use policy recommendations for local officials; and monitoring the impact of BMPs on the watershed water quality.

The project began mid-year 2003 and the County's budget was amended accordingly.

### **Budget Highlights**

The budget reflects revenues and expenditures through the end of the grant, or the third quarter. The costs include full funding for a Planner position and related operational items included in the grant.

#### **Goals and Objectives**

#### **Budget Year Objectives**

- Continue to conduct outreach activities to engage stakeholders, developers, and landowners in the Bonne Femme Watershed.
- Continue to monitor water quality in the Bonne Femme Watershed.
- Conduct cleanup events in the watershed.
- Continue to work with developers to complete a Conservation or Low Impact Development.
- Distribute cost share money to implement BMPs in the watershed.

- Continue to develop land use policy recommendations through steering, policy and stakeholder committees.
- Continue to maintain and update database, website, and GIS as needed.
- Prepare invoices, quarterly progress reports, annual reports, and financial reports for submittal to the MoDNR.

#### **Progress on Prior Year Objectives**

■ Continue to develop scientifically based land-use policies with the help of policy and citizen advisory committees.

**Response:** The stakeholder committee has completed approximately 80% of their work on the Watershed Plan. Work began in July 2006 on Chapter 6, the final chapter of the plan. This chapter will contain the land use policy recommendations.

■ Work with developers to identify and complete a Conservation Development project.

**Response:** Project staff has been working with two developers, one of which will submit an application for cost share to the County in August 2006. Construction cannot begin until County Commission approval of a proposed rezoning and preliminary plat. The developer would like to begin construction in the fall of 2006. A third developer has shown interest in participating in the program and will meet with project staff in August 2006.

■ Continue to provide access to stream monitoring data, research results, and project information to watershed residents through newsletters, a website, and presentations.

**Response:** Information collection and dissemination through various media continues.

■ Conduct education and outreach activities to engage stakeholders, developers, and landowners in the Bonne Femme Watershed.

**Response:** Regular scheduled meetings provide educational sessions to stakeholders. Two events were held in 2006, one targeted real estate and design professionals, while the other targeted homeowners. Both events focused on onsite wastewater systems.

- Develop a cost share plan to implement best management practices BMPs in the watershed using information gathered in the sub-watershed sensitivity analysis.
   Response: A cost share plan has been completed and submitted to the MoDNR for review and approval.
- Conduct clean-up events in Bonne Femme Watershed.

  Response: Project partners, Friends of Rock Bridge Memorial State Park and Rock Bridge Memorial State Park staff, are coordinating clean up events.
- Conduct a sub-watershed sensitivity analysis to determine potentially susceptible areas in the Bonne Femme Watershed.

**Response:** A sub-watershed sensitivity analysis was completed by Applied Ecological Services and delivered to the County in late 2005.

- Complete development of a watershed management plan. **Response:** A watershed management plan, written by a stakeholder committee, is approximately 80% complete.
- Prepare invoices, progress reports, and financial reports for submission to MoDNR.

**Response:** Quarterly progress reports have been submitted to MoDNR. Invoices for the first and second quarters of 2006 are pending.

#### **Performance Measures**
