DESCRIPTION: Lot of 21 cell phones

REQUESTED MEANS OF DISPOSAL: Assure that phones are wiped clean of any stored data and dispose as appropriate.

OTHER INFORMATION: Contacted AT&T (current cell provider) for information on cleaning phones. My best understanding is that it requires a Master Reset which can be accomplished with a clean SIM card inserted and then powering on the phone – at least this is the process for Nokia which is the brand of most of the phones, but may be different for some other brands. Also some ~~cards~~ ^{phones} have a very small data card in the side which should be removed (I didn't see one in any of ours, but could have missed it.) I'll attach a copy of the info from Pace Butler in case it is determined that disposal with them is the most practical and cost effective option.

CONDITION OF ASSET: Poor (most), a few are fair to good condition
