Mr. Greg Edington,

For biweekly mowing service at the old MoDot building located at Barnes Scholl Rd and Hwy 124 it will be \$60.00 per cut pertaining to the specifications that we discussed. This includes:

- Mowing from the building west the top of the East side of the ditch along Barnes School Rd. extending North to the gravel dam retain water coming off the parking lot.
- Mowing from the building south to the large rocks/gravel in the ditch, including both sides of the shrubs.
- Mowing the east side of the driveway, from the driveway to the fence row and from the ditch to the parking lot maintaining the strip along the fence row north to the first large green space opening.
- Trimming will be completed with each mowing around the building and other obstacles that are in the mowed area extending to, but not including the ditch on the west and south sides. Tall grass along the parking lot will also be trimmed on the east side but not along the fence row.

Please let me know if you would like to change or modify any of the existing specifications.

Anthony Poehlmann

**SUBJECT: Fixed Asset Replacement – Failing Hardware – PC Workstation Tag #15320**

The PC with the tag # of 15320 was purchased in February of 2006 for \$982.01. This PC is a HP Model DC7600. This PC shows symptoms of a main board failure and possible CPU failure. The PC is currently assigned to Lois Miller in the Records Office. Repair parts are estimated to cost \$305.00. Not knowing if this is a complete repair for the PC I feel it is not cost effective to attempt to repair the PC. There is not a service contract in place for the PC as it is out of the manufactures 3 year warranty.

Lois Miller is currently using a temporary workstation.

I am recommend we replace the failing PC with a new PC. The Recorder's Office will fund the purchase using account 2800-92301 with a cost of \$580.36. This price includes 1 standard Windows PC with 3 years manufacturer's warranty and shipping.
