Supplier/Vendor - All business(s) entities which may provide the subject goods and/or services.

1.2.3. **Request for Bid (RFB):** This entire document, including attachments, is considered a "Request for Bid." A Request for Bid (RFB) may be used to solicit various kinds of information. That is, the award will not be determined by price alone. The County will be seeking the least costly outcome that meets the County's needs as interpreted by the County.
 - 1.4.1. The County prefers to award all items to one vendor, but it reserves the right to award items on an item-by-item basis and to award to multiple vendors, as determined to be in the County's best interests.
 - 1.4.2. The County of Boone reserves the right to accept or reject any and all bids in the best interest of the County. The County also reserves the right to not award any item or group of items if the services can be obtained from state contract or other governmental entities under more favorable terms.

1.6. **Contract Documents:** The successful bidder(s) shall be obligated to enter into a written contract with the County within thirty (30) calendar days of the notice of award/contract forms provided by the County. If the bidder desires to contract under the bidder's written agreement, any such proposed agreement must be submitted in blank with the bid for the County's consideration as part of the evaluation of bids; in the absence of such submission with the bidder's response, the County's forms shall be used. The County reserves the right to modify any proposed form agreement or withdraw its award to a successful bidder if any proposed agreement contains terms and conditions inconsistent with the County's RFB or are unacceptable to County legal counsel.

Compliance With Standard Terms And Conditions: The bidder shall hereby agree to be bound by the County's standard "boilerplate" terms and conditions for contracts as attached hereto.

2. **SCOPE OF WORK**

2.1 **General Requirements:**

- 2.1.1 The contractor shall install law enforcement specific and/or emergency equipment/accessories in Boone County Sheriff Department's vehicles in accordance with specifications contained herein regarding seven (7) different configurations. The County will provide all law enforcement specific and/or emergency equipment for installation. The contractor shall provide all tools, miscellaneous hardware and supplies necessary for the installation, and all labor. The contractor's installation/upfit of all vehicles shall result in fully operational equipment/accessories that perform in accordance with manufacturer requirements and recommendations.
- 2.1.2 For the purposes of the contract, the terms "utility" and "sedan" will typically refer to a Ford Interceptor Utility Vehicle and other Ford product sedans, e.g. Ford Fusion, etc.. The contractor shall understand and agree that the County reserves the right to select other vehicles to fulfill specialized needs associated with the fleet.
- 2.1.3 Unless otherwise stated, the County will provide all the equipment for the installation. The contractor shall be responsible for providing all miscellaneous hardware (i.e. clamps, nuts, bolts, screws, etc. not already included with new or transferred equipment), all primary and secondary wire not provided as part of an aftermarket harness, and all fuses that are necessary to complete the installation.
- 2.1.4 As needed, shop supplies such as wire connectors, relays, solder, wire, fuse holders, distribution blocks, loom, switches, etc., shall be provided by the contractor and included in quoted total pricing for the completed configuration installation as quoted on the Vendor Response and Pricing Pages. The County shall not be billed per item for any fittings or wiring necessities to complete the installation.
- 2.1.5 The contractor may use their own custom bracketry and/or other custom components if the County determines that such items increase efficiency and/or the quality of the vehicle upfit. If the contractor desires to bill the County separately for the use of customized items, prior

written approval from the Fleet Manager must be obtained by the contractor. The Fleet Manager may request additional information as to why the brackets are necessary. If requested, the custom items must be itemized on the equipment itemization of the invoice.

- 2.1.6 The contractor must provide storage space to accommodate equipment drop-shipped to the contractor because items will be drop-shipped (e.g., prisoner partitions, plastic seats, plastic floor pans, consoles, computer bases, light bars, siren controllers, rifle locks, etc.). The County may purchase fleet equipment for an entire year for vehicle upfitting, and the contractor shall be required to store all equipment for installations for the County as needed.
- 2.1.7 The County will deliver all vehicles to the contractor for vehicle upfitting. Because of the administrative time and costs involved for the County, the contractor's upfitting location shall be located within a 175-mile radius of Columbia, Missouri.
- 2.1.8 The contractor shall provide an authorized Whelen installer to install Whelen parts. The Boone County Sheriff's Department primarily uses Whelen emergency equipment (e.g., emergency lighting, siren speakers, and siren controllers). The Whelen CanTrol® is the primary siren controller used in the marked enforcement vehicles. As outlined in the *Whelen Distributor Agreement for Whelen CanTrol Siren/Controller Systems*, installation of the CanTrol must be completed by an authorized distributor's direct employee who has received training by Whelen personnel.
- 2.1.9 All sub-contracting anticipated by the contractor must be communicated to the County Purchasing Department acting on behalf of the Sheriff's Department. The contractor shall not sub-contract any work on Boone County vehicles without the prior written consent of the Purchasing Department working with the Boone County Sheriff's Department Fleet Manager. Any sub-contracting not identified in the contract must be accomplished through a formal written contract amendment prepared by the Purchasing Department on behalf of the Sheriff's Department and approved by the Boone County Commission.
- 2.1.10 **Warranties:** All electronic equipment shall be wired per both the equipment and vehicle manufacturers' specifications to ensure that both warranties apply.
 - a. The contractor's installation shall be warranted and ensure that the standard manufacturers' warranties shall be provided to the County. During the warranty period, the contractor shall replace any defective products or products that fail to meet identified requirements at no additional cost to the County. The warranty shall commence upon delivery and acceptance of the equipment/supplies by the County.
- 2.1.11 **Final Configuration UpFit Requirements:** If damage to the vehicle occurs during the upfit process, the contractor shall repair the damage if it resulted from something outside the normal scope of the equipment manufacturer's instructions at no additional cost to the County.
 - a. If, during installation of any equipment, penetration of the vehicle's exterior occurs, all holes in the exterior body must be sealed upon completion of the installation by the contractor at no additional cost to the County.
 - b. During installation, the contractor will be permitted to cut or modify interior plastic trim panels for the purpose of installing equipment. For example, the plastic b-pillar

panels must be drilled to accommodate the Pro-Gard™ partition mounting brackets. In addition, plastic interior trim panels may be modified to accommodate wiring if the goal is to reduce stress or prevent damage to aftermarket wiring.

- c. All cabling must be routed behind body trim or other channels to protect it from normal daily traffic as well as potential vandalism from a combative prisoner.
- d. The contractor shall thoroughly vacuum the vehicle after the install to remove any debris discharged inside the vehicle during the installation.

2.1.12 **Fleet Manager Checklist:** All vehicle upfitting must conform to Configuration details presented herein and in accordance with the checklist provided by the Sheriff Department's Fleet Manager. Upon delivering the vehicle to the contractor, the Fleet Manager will provide the contractor with a checklist for the vehicle upfit. The purpose of the checklist is to ensure the Fleet Manager and contractor are in agreement as to how the vehicle equipment is to be installed, arranged, and configured; the checklist will also assist in maintaining consistency between the vehicle builds and verifying completion of work. The final determination of any specific location of equipment for any Configuration shall be made by the Boone County Sheriff's Department Fleet Manager at the time of vehicle is dropped off at the contractor's place of business for the vehicle upfit. Once agreed upon all like vehicles shall be upfitted in the same manner.

- a. Any additional equipment, or changes in what is specified herein, must be documented and agreed upon by both parties in writing, prior to the work being done, with any additional charges being documented and agreed upon as well.

2.2 Electrical/Wiring Requirements:

- 2.2.1 All wiring connections shall be made by way of factory harnesses, custom harnesses or connected by a heat shrinkable butt connector, soldered and shrink wrapped, or other device/method approved by the County. No scotch lock-type connectors shall be allowed. All exterior connections must be protected from corrosion. All connections must pass a pull test.
- 2.2.2 All systems shall be tested after installation with the ignition off and system off to check for parasitic voltage draw.
- 2.2.3 All equipment shall be properly protected with the appropriate size fuse and/or circuit breaker per manufacturer's specifications.
- 2.2.4 All wiring shall be sized to the equipment manufacturer's specification(s.)
- 2.2.5 The upfit wiring system must include a main disconnect or some type of single point, or single location, connection to the factory 12-volt system. This is done so that an Original Equipment Manufacturer (OEM) electrical problem can be quickly and safely separated from aftermarket equipment by a County representative or factory servicing dealer. Any alternatives to a main disconnect must obtain the prior written approval of the Sheriff's Department's Fleet Manager.

- 2.2.6 If applicable to OEM vehicle wiring and available as a feature in the aftermarket hardware, all vehicles must have the siren park kill and horn ring transfer features installed, as well as any other officer safety feature that is available, as requested by the Sheriff's Department Fleet Manager at the time of vehicle drop off .
- 2.2.7 The contractor may be asked to provide the Boone County Sheriff's Department Fleet Manager with a wiring diagram of vehicle. In lieu of a printed wiring diagram, prior to acceptance of vehicle post install, a representative of the contractor will provide the Fleet Manager with a detailed walk-thru of all components, fuse locations, power distribution points, etc.
- 2.2.8 The contractor shall upfit vehicles delivered to the contractor by the Boone County Sheriff's Department in the configuration designated by the Boone County Sheriff's Department's Fleet Manager. The contractor shall be able to perform all configurations as identified below to the sole satisfaction of the Boone County Sheriff's Department's Fleet Manager.

2.3 Configuration #1: Enforcement Utility Vehicle:

- 2.3.1 A Configuration #1 upfit shall be the full installation/upfit of the following list of equipment/accessories on a fully marked enforcement utility vehicle:
 - a. Whelen headlight flasher (model SSFFP16 or similar chosen by the Fleet Manager) to alternately flash the Ford high-beams.
 - b. Whelen Vertex, Whelen Ion, or similar Whelen products in factory police headlamp housing. Each headlamp housing may accommodate one or more Whelen lights.

 - d. Whelen Ions (1 red, 1 blue) flush mounted into bottom of rear lift gate.
 - e. Whelen Legacy (56"), Liberty (48.5"), or similar light bar mounted to top of vehicle (cable routed through top via a drilled hole to reduce wind noise.)
 - f. Whelen CanTrol siren (or CenCom Gold, Sapphire, Carbide, etc.), includes siren programming for proper operation and light output. The Fleet Manager may specify the programming or configuration of the siren controller.
 - g. Whelen Howler low frequency siren with vehicle specific mounting bracket. The Whelen Howler needs to be setup to deliver a 30 second cycle when activated.
 - h. Whelen SA315P 100-watt siren speakers (quantity 2) mounted on front of vehicle. If possible, a vehicle specific mounting bracket(s) will be utilized. The exact location of the speaker(s) will be chosen by the Fleet Manager and may change during the contract based on vehicle manufacturer design changes.
 - i. Pro-Gard (or similar) prisoner transport seating system with the following components: front partition with sliding polycarbonate window, a recessed space-saver panel, and steel extension panels. The rear partition will have a steel screen and seat mount kit. A

In conducting the cost evaluation, Boone County will evaluate pricing that determines the potential maximum financial liability to the County.

All percentages must be applied to the firm pricing quoted for the initial contract period. The offeror is cautioned that percentages that are the same value for successive renewal options must be calculated against original, not compounded, pricing.

Vendors responding to this request must comply with all technical specifications and requirements stated herein.

1.1.1 The County requests bids for provision of **Emergency Vehicle Equipment & Electronics/Accessories Installation** as specified herein for the Boone County Sheriff's Department as further specified herein.

1.1.2 **Purchase History:** In 2018, the County purchased 7 upfits from the current contract (16-23MAR17). Of the 7, 2 were Configuration #2 upfits, 3 were Configuration #1 upfits, and 1 was a Configuration #6 upfit.

1.2. Definitions:

1.2.1. **County:** This term refers to the County of Boone, a duly organized public entity. It may also be used as a pronoun for various subsets of the County organization, including, as the context will indicate:

Purchasing - The Purchasing Department, including its Purchasing Director and staff.

Designee - The County employee(s) assigned as your primary contact(s) for interaction regarding Contract performance.

1.2.2. **Bidder, Contractor, Supplier/Vendor:** These terms refer generally to businesses having some sort of relationship to or with Boone County. The term may apply differently to different classes of entities, as the context will indicate.

Bidder - Any business entity submitting a response to this RFB. Suppliers, which may be invited to respond, or which express interest in this bid, but which do not submit a response, have no obligations with respect to the bid requirements.

Contractor- The bidder whose response to this RFB is found by Purchasing to meet the best interests of the County. The contractor is the "successful bidder" who has been selected for award, and will enter into a contract for provision of the goods and/or services described in the RFB.

Supplier/Vendor - All business(s) entities which may provide the subject goods and/or services.

1.2.3. **Request for Bid (RFB):** This entire document, including attachments, is considered a "Request for Bid." A Request for Bid (RFB) may be used to solicit various kinds of information. The kind of information this RFB seeks is indicated by the title appearing at the top of the first page. A "Request for Bid" is used when the need is well defined. A "Request

for Proposal” is used when the County will consider solutions, which may vary significantly from each other or from the County’s initial expectations.

1.2.4. **Response/Bid:** The written, sealed document submitted by the bidder/vendor/supplier according to the RFB instructions.

1.3. **Bid Clarification:** Questions regarding this RFB should be directed in writing, preferably by e-mail, to the identified Buyer in the Purchasing Department. Note: Written requirements in the RFB or its Amendments are binding, but any oral communications between the County and Bidder are not binding.

Bid/Clarification Contact: Liz Palazzolo, Senior Buyer, Boone County Purchasing, 613 E. Ash, Room 109, Columbia, MO 65202. Telephone: (573) 886-4392; Fax: (573) 886-4390; E-mail: lpalazzolo@boonecountymo.org.

1.3.1. **Bidder Responsibility:** The bidder is expected to be thoroughly familiar with all specifications and requirements of this RFB. The bidder’s failure or omission to examine any relevant form, article, site or document will not relieve the bidder from any obligation regarding this RFB. By submitting a response/bid, the bidder is presumed to concur with all terms, conditions and specifications of this RFB.

1.3.2. **Bid Addendum:** If it becomes evident that this RFB must be amended, the Purchasing Department will issue a formal written Addendum to all known prospective bidders. If necessary, a new due date will be established.

1.4. **Award:** Award will be made to the bidder(s) whose bid(s) provides the greatest value to the County from the standpoint of suitability to purpose, quality, service, previous experience, price, lifecycle cost (as applicable), ability to deliver, or for any other reason deemed by Purchasing to be in the best interest of the County. That is, the award will not be determined by price alone. The County will be seeking the least costly outcome that meets the County’s needs as interpreted by the County.

1.4.1. The County prefers to award all items to one vendor, but it reserves the right to award items on an item-by-item basis and to award to multiple vendors, as determined to be in the County’s best interests.

1.4.2. The County of Boone reserves the right to accept or reject any and all bids in the best interest of the County. The County also reserves the right to not award any item or group of items if the services can be obtained from state contract or other governmental entities under more favorable terms.

1.5. **Contract Execution:** This RFB and the Vendor’s Response will be made part of any resulting contract and will be incorporated in the contract as set forth, verbatim.

1.5.1. **Precedence:** In the event of any contradiction or conflict between the provisions of the documents comprising the contract, the following order of precedence shall apply:

1) the provisions of the Contract (as it may be amended);

- 2) the provisions of the RFB, including any addenda;
- 3) the provisions of the Vendor's Response, including any clarification.

1.6. Contract Documents: The successful bidder(s) shall be obligated to enter into a written contract with the County within thirty (30) calendar days of the notice of award/contract forms provided by the County. If the bidder desires to contract under the bidder's written agreement, any such proposed agreement must be submitted in blank with the bid for the County's consideration as part of the evaluation of bids; in the absence of such submission with the bidder's response, the County's forms shall be used. The County reserves the right to modify any proposed form agreement or withdraw its award to a successful bidder if any proposed agreement contains terms and conditions inconsistent with the County's RFB or are unacceptable to County legal counsel.

Compliance With Standard Terms And Conditions: The bidder shall hereby agree to be bound by the County's standard "boilerplate" terms and conditions for contracts as attached hereto.

2. SCOPE OF WORK

2.1 General Requirements:

- 2.1.1 The contractor shall install law enforcement specific and/or emergency equipment/accessories in Boone County Sheriff Department's vehicles in accordance with specifications contained herein regarding seven (7) different configurations. The County will provide all law enforcement specific and/or emergency equipment for installation. The contractor shall provide all tools, miscellaneous hardware and supplies necessary for the installation, and all labor. The contractor's installation/upfit of all vehicles shall result in fully operational equipment/accessories that perform in accordance with manufacturer requirements and recommendations.
- 2.1.2 For the purposes of the contract, the terms "utility" and "sedan" will typically refer to a Ford Interceptor Utility Vehicle and other Ford product sedans, e.g. Ford Fusion, etc.. The contractor shall understand and agree that the County reserves the right to select other vehicles to fulfill specialized needs associated with the fleet.
- 2.1.3 Unless otherwise stated, the County will provide all the equipment for the installation. The contractor shall be responsible for providing all miscellaneous hardware (i.e. clamps, nuts, bolts, screws, etc. not already included with new or transferred equipment), all primary and secondary wire not provided as part of an aftermarket harness, and all fuses that are necessary to complete the installation.
- 2.1.4 As needed, shop supplies such as wire connectors, relays, solder, wire, fuse holders, distribution blocks, loom, switches, etc., shall be provided by the contractor and included in quoted total pricing for the completed configuration installation as quoted on the Vendor Response and Pricing Pages. The County shall not be billed per item for any fittings or wiring necessities to complete the installation.
- 2.1.5 The contractor may use their own custom bracketry and/or other custom components if the County determines that such items increase efficiency and/or the quality of the vehicle upfit. If the contractor desires to bill the County separately for the use of customized items, prior

written approval from the Fleet Manager must be obtained by the contractor. The Fleet Manager may request additional information as to why the brackets are necessary. If requested, the custom items must be itemized on the equipment itemization of the invoice.

- 2.1.6 The contractor must provide storage space to accommodate equipment drop-shipped to the contractor because items will be drop-shipped (e.g., prisoner partitions, plastic seats, plastic floor pans, consoles, computer bases, light bars, siren controllers, rifle locks, etc.). The County may purchase fleet equipment for an entire year for vehicle upfitting, and the contractor shall be required to store all equipment for installations for the County as needed.
- 2.1.7 The County will deliver all vehicles to the contractor for vehicle upfitting. Because of the administrative time and costs involved for the County, the contractor's upfitting location shall be located within a 175-mile radius of Columbia, Missouri.
- 2.1.8 The contractor shall provide an authorized Whelen installer to install Whelen parts. The Boone County Sheriff's Department primarily uses Whelen emergency equipment (e.g., emergency lighting, siren speakers, and siren controllers). The Whelen CanTrol® is the primary siren controller used in the marked enforcement vehicles. As outlined in the *Whelen Distributor Agreement for Whelen CanTrol Siren/Controller Systems*, installation of the CanTrol must be completed by an authorized distributor's direct employee who has received training by Whelen personnel.
- 2.1.9 All sub-contracting anticipated by the contractor must be communicated to the County Purchasing Department acting on behalf of the Sheriff's Department. The contractor shall not sub-contract any work on Boone County vehicles without the prior written consent of the Purchasing Department working with the Boone County Sheriff's Department Fleet Manager. Any sub-contracting not identified in the contract must be accomplished through a formal written contract amendment prepared by the Purchasing Department on behalf of the Sheriff's Department and approved by the Boone County Commission.
- 2.1.10 **Warranties:** All electronic equipment shall be wired per both the equipment and vehicle manufacturers' specifications to ensure that both warranties apply.
- a. The contractor's installation shall be warranted and ensure that the standard manufacturers' warranties shall be provided to the County. During the warranty period, the contractor shall replace any defective products or products that fail to meet identified requirements at no additional cost to the County. The warranty shall commence upon delivery and acceptance of the equipment/supplies by the County.
- 2.1.11 **Final Configuration UpFit Requirements:** If damage to the vehicle occurs during the upfit process, the contractor shall repair the damage if it resulted from something outside the normal scope of the equipment manufacturer's instructions at no additional cost to the County.
- a. If, during installation of any equipment, penetration of the vehicle's exterior occurs, all holes in the exterior body must be sealed upon completion of the installation by the contractor at no additional cost to the County.
 - b. During installation, the contractor will be permitted to cut or modify interior plastic trim panels for the purpose of installing equipment. For example, the plastic b-pillar

panels must be drilled to accommodate the Pro-Gard™ partition mounting brackets. In addition, plastic interior trim panels may be modified to accommodate wiring if the goal is to reduce stress or prevent damage to aftermarket wiring.

Good afternoon Jennie,

Per your request, I received approval to remove the Esri Proprietary and Confidential Information statement at the bottom of the pricing pages. Enclosed is an updated PDF of the Agreement with the pricelist pages marked Proprietary/Confidential (15-57) removed and replaced with the same pricelist without such markings. Please note the removal of footer text resulted in a page count reduction for the pricelist, from 43 to 42 pages. The page count in the footer was updated appropriately. No other changes were made.

Esri agrees that, in accordance with the SFST30034902000283 document, Section 3.8.1 a., Missouri State Statute (Section 610.021), all documents shall become public record. Esri understands and confirms that although Article 10 of Exhibit B indicates pricing will only be utilized on the State's intranet site, the state reserves the right to utilize it on their Statewide Contract public website as well or any other website that supports the usage of CT200283001.

Thank you,
Leslie

Leslie,

Would it be possible to have your company remove the Esri Proprietary and Confidential Information statement at the bottom of the pricing pages.

Also, I need you to confirm that in accordance with the SFST30034902000283 document, Section 3.8.1 a., Missouri State Statute (Section 610.021), all documents shall become public record. In addition, please confirm that Esri understands that although Article 10 of Exhibit B indicates pricing will only be utilized on the State's intranet site, the state reserves the right to utilize it on their Statewide Contract public website as well or any other website that supports the usage of CT200283001.

A prompt response is desired. Thank you for your help with this matter.

3. CONTRACT REQUIREMENTS

3.1 Contract:

- 3.1.1 A binding contract shall consist of: (1) the SFS document and any amendments thereto, (2) the contractor's response to the SFS, (3) clarifications, if any, and (4) the Division of Purchasing's acceptance of the response by "notice of award" or by "purchase order". In addition, all Exhibits and Attachments included in the SFS shall be incorporated into the contract by reference.
- 3.1.2 A notice of award issued by the State of Missouri does not constitute an authorization for shipment of equipment or supplies or a directive to proceed with services. Before providing equipment, supplies and/or services for the State of Missouri, the contractor must receive a properly authorized purchase order or other form of authorization given to the contractor at the discretion of the state agency. All purchase orders shall comply with the requirements listed in SFST30034902000283, **Exhibit B** and **Exhibit C**.
- 3.1.3 The contract expresses the complete agreement of the parties and performance shall be governed solely by the specifications and requirements contained therein.
- 3.1.4 Any change to the contract, whether by modification and/or supplementation, must be accomplished by a formal contract amendment signed and approved by and between the duly authorized representative of the contractor and the Division of Purchasing prior to the effective date of such modification. The contractor expressly and explicitly understands and agrees that no other method and/or no other document, including correspondence, acts, and oral communications by or from any person, shall be used or construed as an amendment or modification to the contract.
- New or subsequent version releases of Software, Data, and Online Services may require additional or revised **Exhibit B** and/or **Exhibit C** in order for the Licensee to use or install the affected Software, Data, and Online Services. In the event changes to **Exhibit B** and/or **Exhibit C** are required, any changes, whether by modification or supplementation, must be accomplished by a formal contract amendment between Esri and the State of Missouri, Division of Purchasing. Esri may withhold new versions, updates or releases of Software and Data or suspend Online Services if Esri and the State of Missouri cannot amend this SFST30034902000283 to update **Exhibit B** and/or **Exhibit C**.
 - License agreements accepted in SFST30034902000283 shall supersede online versions of Esri license agreements.

3.2 Contract Period/Renewal:

- 3.2.1 The original contract period shall be Date of Award through One (1) Year. The contract shall not bind, nor purport to bind, the state for any contractual commitment in excess of the original contract period. The Division of Purchasing shall have the right, at its sole option, to renew the contract for four (4) additional one-year periods, or any portion thereof upon acceptance of the applicable Esri price list and Terms and Conditions for the renewal period. In the event the Division of Purchasing exercises such right, all terms and conditions, requirements and specifications of the contract shall remain the same and apply during the renewal period, and pricing shall not increase by more than 7.5% over the previous year's pricing, **except that in no event shall pricing fall below the pricing in Esri's GSA Schedule.**

3.3 Termination:

- 3.2 Termination for Convenience: SFST30034902000283 may be terminated by the Division of Purchasing for the convenience of the State of Missouri without penalty or recourse, upon thirty (30) days' written notice to Esri. Esri shall be entitled to receive compensation for services provided to and accepted by the State of Missouri pursuant to the contract prior to the effective date of termination.

- 3.3 Termination for Material Breach: Without prejudice to any other right or remedy available, this Agreement may be terminated by Esri for breach, provided the breaching party is given forty-five (45) days' written notice. Termination of SFST30034902000283 as to a Customer shall be effective upon written notice to a Customer if the Customer materially violates any intellectual property rights of Esri in breach of SFST30034902000283. Esri, at its sole election, may terminate the right of any Authorized Entity (as defined in Section 1.2 above) to participate in SFST30034902000283 for material breach of contract provisions in accordance with this provision without terminating SFST30034902000283 with respect to the state or any other Authorized Entity.
- 3.4 Customer Obligations upon Termination: On termination of this SFST30034902000283, all accounts and payments will be processed according to financial arrangements set forth herein for performance rendered to the date of termination. - 3.5 Cancellation of an Order: Purchase orders, other than for the initial purchase, may be canceled by Customer in whole or in part, upon forty-five (45) days' written notice to Esri. There will be no cancellation charge for canceled Products unless such Products have been delivered. If Products have been shipped, the cancellation will require Customer payment of return shipping costs. There are no refunds for cancellation of a subscription or maintenance if the term for the subscription or maintenance has started.
- 3.4 Software Licensing:**

3.6.4 Circumstances may arise where, because of the default on Esri's part or other liability, the State is entitled to recover damages from Esri. In each such instance, regardless of the basis on which the State is entitled to claim damages from Esri, Esri is liable only for:

ARTICLE 2—TERM OF AGREEMENT

Customer's right to purchase under this MPA shall remain in effect for one (1) year from the Effective Date unless terminated earlier as set forth in Article 5—Termination; Cancellation. The Signing Entity shall have the option to renew this MPA for four (4) additional one-year terms, and such optional renewals shall be effective upon mutual written agreement between the parties. The term of any Esri Offering licenses ordered through this MPA shall be as stated in the Master Agreement.

ARTICLE 3—PRODUCT OFFERINGS

Esri may, at its sole discretion, offer new Esri Offerings, or larger quantity discount pricing by the submittal of an updated MPA Price List.

3.2 Master Agreement. Esri may require additional or different license terms prior to the use of new Esri Offerings. Such additional terms shall be available at <http://www.esri.com/legal>, included with a quote, or included with the deliverable Esri Offerings. The then-current Master Agreement shall become part of this MPA upon (i) ordering Esri Offerings or (ii) thirty (30) days after Customer's receipt of Esri Offerings, whichever is sooner.

ARTICLE 4—GRANT OF LICENSE AND SCOPE OF USE

The license grant and permitted uses specified in the Master Agreement are restricted to use within the continental United States; Hawaii; Alaska; and US territories, excluding Puerto Rico and the US Virgin Islands.

ARTICLE 5—TERMINATION; CANCELLATION

- b. **Termination for Material Breach.** Without prejudice to any other right or remedy available, this MPA may be terminated for material breach, provided the breaching party is given thirty (30) days' written notice. Termination of this MPA shall be effective upon written notice to Customer if Customer discloses any trade secret or other information proprietary to Esri in breach of this MPA .

If a viable solution is not commercially reasonable, Customer may cancel its subscription to Online Services, and Esri will issue a prorated refund.

Each Service Credit entitles Customer to consume a set amount of Online Services, the amount varying depending on the Online Services that Customer is using. As Customer consumes Online Services, Service Credits are automatically debited from Customer's subscription, up to the maximum number of Service Credits available. Customer may purchase additional Service Credits as needed. Esri will notify Customer's subscription account administrator when Customer's Service Credit consumption reaches approximately 75 percent of the Service Credits allocated to Customer through Customer's subscription. Exhibit C (Cont.)

3.1 Limited Warranties. Except as disclaimed below, Esri warrants to Customer that (i) Products and Training will substantially comply with the applicable Specifications and (ii) Services will substantially conform to the professional and technical standards of the industry. Esri does not warrant that Esri Offerings, or Customer's operation of the same, will be uninterrupted, error free, fault tolerant, or fail-safe or that all nonconformities can or will be corrected. Esri Offerings are not designed, manufactured, or intended for use in environments or applications that may lead to death, personal injury, or physical property or environmental damage. Customer should not follow any navigational route suggestions that appear to be hazardous, unsafe, or illegal. Any such uses will be at Customer's own risk and cost.

Esri or its authorized distributor has set its fees and entered into this Agreement in reliance on the disclaimers and limitations in this Agreement; the fees reflect an allocation of risk that is an essential basis of the bargain between the parties. **These limitations will apply whether or not a party is aware of the possibility of any damage and notwithstanding any failure of essential purpose of any exclusive, limited remedy.**

4.4 The foregoing disclaimers, limitations, and exclusions may be invalid in some jurisdictions and apply only to the extent permitted by applicable law or regulation in Customer's jurisdiction. Customer may have additional rights that may not be waived or disclaimed. Esri does not seek to limit Customer's warranty or remedies to any extent not permitted by law.

- c. Esri has no obligation to defend an Infringement Claim or to indemnify Customer to the extent the Infringement Claim arises out of (i) the combination or integration of Esri Offerings or Services with a product, process, system, or element that Esri has not supplied or specified in the Specification; (ii) alteration of Esri Offerings or Services by anyone other than Esri or its subcontractors; (iii) compliance with Customer's specifications; or (iv) use of Esri Offerings or Services after Esri either provides a modified version to avoid infringement or terminates Customer's right to use the Esri Offerings or Services.

5.3 General Indemnity. Esri will defend and hold all Indemnitees harmless from, and indemnify any Loss arising out of, any Claim for bodily injury, death, or tangible or real property damage brought against any of the Indemnitees to the extent arising from any negligent act or omission or willful misconduct by Esri or its directors, officers, employees, or agents performing Services while on Customer's site.

This express prohibition on patenting will not apply to Customer's software and technology except to the extent that Products, or any portion thereof, are part of any claim or preferred embodiment in a patent application or a similar application.

9.4 Restrictions on Solicitation. Neither party will solicit for hire any employee of the other party who is associated with the performance of Services during the performance of the Services and for a period of 1 year thereafter. This does not restrict either party from publicly advertising positions for hire in newspapers, professional magazines, or Internet postings.

9.5 Taxes and Fees; Shipping Charges. Pricing of Esri Offerings and Services that Esri quotes to Customer is exclusive of any and all applicable taxes or fees including, but not limited to, sales tax, use tax, or value-added tax (VAT); customs, duties, or tariffs; shipping and handling charges; and vendor enrollment fees. Esri will add any fees that it is required to pay to the total amount of its invoice to Customer. Customer will promptly correct any noncompliance identified during the compliance review. Neither Esri nor Esri's distributor may conduct a compliance review of Customer within 12 months after the conclusion of any prior compliance review that does not reveal any material Customer noncompliance.

9.7 No Implied Waivers. The failure of either party to enforce any provision of this Agreement is not a waiver of the provisions or of the right of such party thereafter to enforce that or any other provision.

9.8 Severability. If any provision of this Agreement is held to be unenforceable for any reason, (i) such provision will be reformed only to the extent necessary to make the intent of the language enforceable, and (ii) all other provisions of this Agreement will remain in effect.

Customer will not assign, sublicense, or transfer Customer's rights or delegate Customer's obligations under this Agreement without Esri's and its authorized distributor's prior written consent, and any attempt to do so without consent will be void. This Agreement will be binding on the respective successors and assigns of the parties to this Agreement. Notwithstanding, a contractor under contract to the government to deliver Products may assign this Agreement and Products acquired for delivery to its government customer upon written notice to Esri, provided the government customer assents to the terms of this Agreement. Upon mutual agreement, Esri's Affiliates may provide Services under the terms of this Agreement; in such cases, the Ordering Documents will identify the Affiliate as the party that provides the Services. Esri's distributors are not Affiliates of Esri.

Products are subject to restrictions, and this Agreement strictly governs Customer's use, modification, performance, reproduction, release, display, or disclosure of Products. Agreement provisions that are inconsistent with federal law regulation will not apply. A US government Customer may transfer Software to any of its facilities to which it transfers the computer(s) on which it has installed such Software. If any court, arbitrator, or board holds that a US government Customer has greater rights to any portion of Products under applicable public procurement law, such rights will extend only to the portions affected. ArcGIS Online has been granted FedRAMP tailored low authorization but does not meet higher security requirements including those found in DFARS 252.239-7010.

If Customer is in the United States or one of its territories or outlying areas, the Commercial Arbitration Rules of the American Arbitration Association will govern the arbitration proceedings. If Customer is outside the United States, the Rules of Arbitration of the International Chamber of Commerce will govern the proceedings. The parties will select a single arbitrator in accordance with the applicable arbitration rules. The language of the arbitration will be English. Arbitration will be at an agreed-upon location. Either party will, at the request of the other, make available documents or witnesses relevant to the major aspects of the dispute.

1. By signing and submitting this proposal, the prospective recipient of Federal assistance funds is providing the certification as set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Department of Labor (DOL) may pursue available remedies, including suspension and/or debarment.
3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. 7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to check the List of Parties Excluded from Procurement or Nonprocurement Programs.
