MEMORANDUM

TO: Boone County Commission
FROM: David Eagle
RE: Computer and Peripheral Surplus Disposal
DATE: February 10, 2021

The Purchasing Departments requests permission to dispose of the following list of surplus PC'S, peripheral equipment, unworking air conditioners, file cabinets, and other miscellaneous items through MRC Recycling Center. MRC Recycling will pick up our surplus for fifty dollars per load. Tubed monitors and TV's cost extra. There is also an extra charge for items with freon. They are a State of Missouri, DNR Level Four recycling center. No computer items are land-filled. Purchasing will obtain a Certificate of Destruction, and we will let them know that we want everything recycled, not reused so nothing ends up in the landfill.

Prior to Computer surplus coming to Purchasing for disposal, Information Technology has removed the hard drives for destruction by their department. Their procedure for PC disposal is:

Once all the data is copied or recovered for the user, IT removes the hard drive and memory from the PC. The memory is held to be used for upgrading other PCs at the county that can benefit. IT sometimes removes parts that can be used as spare if the model is current enough. (ie Power Supplies, Video Cards, etc.) The hard drive is held for a minimum of 30 days in case a user identifies something is missing. After 30 days IT may reuse the hard drive in other county PCs if there are failures. If a hard drive goes unused or fails and IT needs to physically dispose of it, they drill a 5/8" hole through the drive and the data platters. Once IT has collection of "drilled" drives, they deliver them to PC recycling vendor, MRC Recycling Center.

MRC Recycling Center certifies that they have picked up the following items and that all items will be recycled, not reused, so nothing ends up in the landfill.

III. Postaward Requirements

3.7 PROPERTY STANDARDS

- Cost of the property
- Percentage of Federal participation in the cost of the property
- Location of the property
- Use and condition of the property
- Disposition data, including the date of disposal and sale price
- **Inventory.** A physical inventory of the property must be taken and the results reconciled with the property records at least once every 2 years.
- **Maintenance procedures.** Adequate maintenance procedures must be established and used to keep the property in good condition.
- **Control system.** A control system must be in place with adequate safeguards to prevent loss, damage, and theft.
 - Promptly and properly investigate and fully document any loss, damage, or theft, and make the documentation part of the official project records. 2 C.F.R. § 200.313 (d)(3).
 - Provide at a minimum, the equivalent insurance coverage for equipment acquired with Federal funds that the non-Federal entity owns. Federally-owned equipment need not be insured unless required by the award. 2 C.F.R. § 200.310.
 - Non-federal entities are responsible for replacing or repairing property that is willfully or negligently lost, stolen, damaged, or destroyed.
- **Proper sales procedures.** If authorized or required to sell the property, the recipient or subrecipient must establish proper sales procedures to ensure the highest possible return.

Disposition of Equipment

A State recipient must dispose of equipment acquired under the award in accordance with State laws and procedures.

Recipients and subrecipients other than States must dispose of the equipment when original or replacement equipment acquired under the award or subaward is no longer needed for the original project, or for other activities currently or previously supported by a Federal awarding agency, as follows:

- If the item to be disposed of has a current per-unit fair market value of \$5,000 or less, the item may be retained, sold, or otherwise disposed of with no further obligation to the awarding agency.
- If the item has a current per-unit fair market value of more than \$5,000, the item may be retained or sold, but the awarding agency will have a right to a specific dollar amount. Calculate this amount by multiplying the current market value or proceeds from the item sale by the awarding agency's share of the equipment (i.e., the agency's percentage of participation in the cost of the original purchase). The seller is also eligible for limited sale and handling costs of \$500 or 10% of the proceeds, whichever is less.
- In cases where the recipient or subrecipient fails to take appropriate disposition actions, the awarding agency may direct other disposition actions.

Non-Grant Units
