

Appendix 1: Expenditure Categories

Treasury’s final rule provides greater flexibility and simplicity for recipients to fight the pandemic and support families and businesses struggling with its impacts, maintain vital services amid revenue shortfalls, and build a strong, resilient, and equitable recovery. As such, recipients began reporting on a broader set of eligible uses and associated Expenditure Categories (“EC”), starting with the April 2022 Project and Expenditure Report than they did in their interim reports, initial Recovery Plans, and January Project and Expenditure Report. The table below includes the new Expenditure Categories, as well as a reference to previous Expenditure Categories aligned with the interim final rule and used for reporting before this date.

The Expenditure Categories (EC) listed below must be used to categorize each project as noted in Part 2 above. The term “Expenditure Category” refers to the detailed level (e.g., 1.1 COVID-19 Vaccination). When referred to as a category (e.g., EC 1) it includes all Expenditure Categories within that level.

*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details)

^Denotes areas where recipients must report on whether projects are primarily serving disproportionately impacted communities (see Project Demographic Distribution section above for details)
