Using This Plat Book

This book is published by the Boone County Assessor's Office as a guide to the community. The maps contained herein were prepared for the inventory of real property based on the utilization of deeds, plans, and/or supportive data. In addition, map files are frequently changed to reflect changes in boundaries, lot lines and other geographic features resulting from changes in ownership, development, and other causes. The existence, dimension, and location of features, as well as other information, should not be relied upon for any purpose without actual field verification. The County of Boone makes no warranty of any kind concerning the completeness or accuracy of information contained on these maps and assumes no liability or responsibility for the use or reuse of these maps by persons not affiliated with Boone County. Use of these maps by any person not affiliated with Boone County constitutes agreement by the user to assume full liability and responsibility for the verification of the accuracy of information shown on these maps.

Even plat book township pages include public and most private roads and subdivisions, odd pages show ownership and public roads. The Plat Maps show owner and acreage information for parcels greater than five acres. Due to space constraints, only part of the name may be displayed. The owner index at the back of the book will help you locate property by owner or road names. Properties that are smaller than five acres and/or located in Subdivisions do not display owner and acreage information but are listed in the Owner Index and indicated by an asterisk at the end of the name.

Boone County property information is available online and free to the public by browsing to the Assessor's website at showmeboone.com or scanning the QR code to the right.

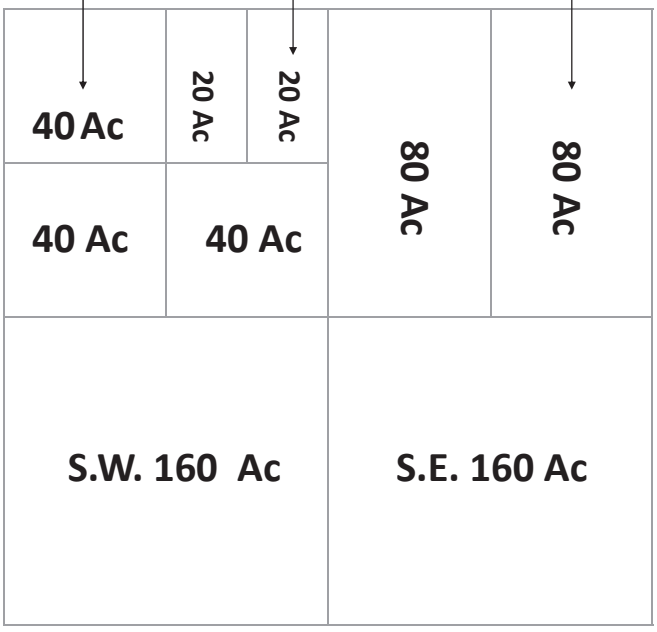
N.W. 1/4 of the N.W 1/4

E 1/2 of the N.E 1/4



Land Description

The United States Public Land Survey System in Missouri is an extension of the system adopted by the U.S. Congress in 1785. Between 1815 and 1855, Missouri was surveyed into one mile squares called sections that each contain 640 acres. Thirty-six sections in a block of land measuring six miles on each side is called a township. These create the basis for the transfer of land from the U.S. Government to private owners and is the basis for all land transfers and ownership in the state today.

Civil & Congressional Township Information

Civil, also referred to as political or incorporated, townships are defined by local governments and are often given names (e.g. Cedar Township). Congressional townships (e.g. T51N-R13W) , named based on Public Land Survey System (PLSS) Township (North or South) and range (East or West) relationship to the principal meridian and base line. Civil township boundaries may not correspond to the congressional townships described by the PLSS and often follow water features, county boundaries, or other non-square delineations as those used in the PLSS.

Government Lot Usage

Government lots are used to describe subparts of a section which are not described as aliquot parts of the section, but which is designated by number, for example, Lot 3. A lot may be regular or irregular in shape, and its acreage may vary from that of regular aliquot parts. These lots frequently border water areas excluded from the PLSS. Government Lots were also used to compensate for the curvature of the earth when the PLSS was originally established and thus resulted in oddly shaped acreages on the north and west sides of some congressional townships.

Reading and Understanding Land Descriptions

A land description generally starts with the smallest part of the description and proceeds to the largest definition and are often based on the Public Land Survey System (PLSS). For example, NW1/4 of NE1/4 of Section 8, T50N, R12W would be the northwest quarter of the northeast quarter of section 8 in township 50 north and range 12 west. To locate a tract of land using a land description, you need to work from the largest part to the smallest part.

Metes and Bounds Descriptions

Metes and bounds are land descriptions used for odd shaped tracts of land not easily described using a Public Land Survey System (PLSS) description. A metes and bounds description uses a running list of measures of compass angle and distances that start at a point of beginning and run around the perimeter of the property being described.

An example is as follows: Part of the SE1/4SE1/4. Section 31, T49N, R11W, described as beginning at a point, travel north 500 feet, thence west 500 feet, thence south 500 feet, thence S44’51”E 12 feet, thence northeasterly to the point of beginning and containing 5.81 acres and subject to the right of way for Mexico Gravel Road.

The Official Boone County Missouri Web Site

Boone County is working hard to serve the County's citizens by delivering online, easy access to many of the services provided by the County. Here you can easily access information varying from Commission meeting minutes and orders to personal property and real estate information. We may save you a trip to the Roger B. Wilson Boone County Government Center by providing services such as online updates of your Personal Property Declarations, absentee ballot requests, and real time search access to many of the county systems. We also provide a map to the Government Center and hours of operation. Need a phone number? Check out the phone directory. Please, send us your comments and suggestions. We are here to serve you.

OWNER INDEX INSTRUCTIONS

The Owner Index shows the name of the landowner, the page number, township, range, and section for properties located in the Township Plat Maps. The Plat Maps show owner and acreage information for properties greater than 5 acres. Properties that are smaller than 5 acres and/or located in Subdivisions do not display owner and acreage information but are listed in the Owner Index and indicated by an asterisk at the end of the name.

The Official Boone County Missouri Web Site

Boone County is working hard to serve the County's citizens by delivering online, easy access to many of the services provided by the County. Here you can easily access information varying from Commission meeting minutes and orders to personal property and real estate information. We may save you a trip to the Roger B. Wilson Boone County Government Center by providing services such as online updates of your Personal Property Declarations, absentee ballot requests, and real time search access to many of the county systems. We also provide a map to the Government Center and hours of operation. Need a phone number? Check out the phone directory. Please, send us your comments and suggestions. We are here to serve you.
