The following is a list of questions that must be answered when making sole source requests. This is a formal document for submission to the County Commission. If a question is not applicable, please indicate N/A. Use layman's terms and avoid jargon and the use of acronyms.

- Please check the reason(s) for this sole request:
 - Only Known Source-Similar equipment or material not available from another vendor
 - Equipment or materials must be compatible with existing Equipment
 - Immediate purchase necessary to correct situation threatening life/property
 - Lease Purchase - Exercise purchase option on lease
 - Medical device or supply specified by physician

- Used Equipment - Within price set by one/two appraisal(s) by disinterested party(ies)
 - Other - List (attach additional sheets if necessary)
-

2. Briefly describe the commodity/material you are requesting and its function.
- *Thomson Reuters offers Westlaw subscription services which provides on-line legal information that is essential to the Boone County Legal Office and the Boone County Prosecutor's Office in conducting their work for the County. Westlaw provides exclusive access to the Missouri Practice Series as well as their proprietary Key Number research annotations in decisional law, both of which are essential tools.*
3. Describe the unique features/compatibility of the commodity/material that precludes competitive bidding.

Thomson Reuters Westlaw has data unique to its subscription service that the Legal Office and the Prosecuting Attorney's Office require. The following identifies unique data and features the Westlaw subscription and the CLEAR product possess that are essential to the Legal Office and the Prosecuting Attorney's Office:

- *Westlaw Edge has exclusive/unique search features for conducting legal database searches;*
 - *WestSearch is an exclusive/unique search engine that incorporates over 140 years of proprietary analysis of the law and exclusive search tools such as key numbers, Key Cite, headnotes, notes of decisions, indexes, and secondary sources to deliver relevant documents associated with a search for legal information;*
 - *Digital access to the Missouri Practice series (copyrighted);*
 - *West's unique/proprietary KeyCite system – a tool used for detailed caselaw research;*
 - *Law Summaries – Westlaw provides answers to common types of legal questions that link to authoritative court decisions;*
 - *Research Recommendations – Westlaw will recommend primary and secondary law and Key Numbers based on documents the user has accessed in their search;*
 - *Snapshots of companies, legal professionals and popular statutes;*
 - *Folder Analysis – Westlaw suggests additional recommended cases and statutes based on cases and statutes in a folder set-up by the user.*
 - *CLEAR – a comprehensive on-line investigative platform used by the Prosecuting Attorney's Office – it includes unique features and capabilities such as Passport Checker, Photo Images on Criminal Records, Cell Phone Data, Credit Reporting Bureaus, Real Time Vehicle Registration Data, and Global Business Data. CLEAR also includes Alerts on selected attributes or subjects, a Web/Social Media dashboard tool, Quick Analysis Flags, Address Maps, provides the user with a tool to create a Customizable Dashboard, Vital Statistics, Linked Searching, Entity Resolution (uses Entity Resolved Database technology to find all available public records pertaining to a subject), Relevance Scores (most relevant records appear at top of search), Data Source Transparency, User Preferences (sources and reported dates accompany the data), Customizable Reporting, Workspace (allows user to save selected results and report data indefinitely and generates link-charts and data maps), CLEAR Mobile Access (critical data can be accessible via user's smart phone), Compatibility with Analytical Programs (data from CLEAR can be transferred and integrated with other programs), and Google Maps Compatibility.*
4. What research has been done to verify this vendor as the only known source?
- *See attached Sole Source Justification Letters from Thomson Reuters.*
 - *Advertised in both the Missourian and Columbia Tribune – no vendors have responded*
5. Does this vendor have any distributors, dealers, resellers, etc. that sell the commodity/material?
- Yes (please attach a list of known sources)

√ No

6. Must this commodity/material be compatible with present inventory/equipment, or in compliance with the manufacturer's warranty or existing service agreement? If yes, please explain.
 - *Not to my knowledge.*
7. If this is an initial purchase, what are the future consequences of the purchase? That is, once this purchase is approved and processed, what additional upgrades/additions/supplies/etc. are anticipated/projected over the useful life of this product?
 - *On-Going Purchase – previously bid under contract 08-01MARI6. Only competitor is Lexis-Nexis which does not have certain data Westlaw accesses and that is needed by the Legal Office and the Prosecuting Attorney's Office.*
8. If this is an upgrade/add-on/supply/repair/etc. to existing equipment, how was the original equipment purchased (sole source or competitive bid)? What additional, related, sole source purchases have occurred since the initial purchase? Please state previous purchase order number(s).
 - *This is not an upgrade.*
9. How has this commodity/material been purchased in the past? (Sealed Bid, Sole Source, RFP, other) Please provide document numbers.
 - *Previously bid. Westlaw has the preferred product and some proprietary and unique databases/features required by the County. In addition, past County experience contracting with Lexis-Nexis for their product was not positive. Westlaw has unique data Lexis does not have that the County Legal Office and Prosecuting Attorney's Office require.*
10. What are the consequences of not securing this specific commodity/material?
 - *Inhibits the Legal Office and the Prosecuting Attorney's Office from conducting full and reliable legal research.*
11. List any other information relevant to the acquisition of this commodity/material (additional sheets may be attached, if necessary).
 - *See attached Sole Source Justification Letters from Thomson Reuters.*
12. How long is sole source approval necessary for this type of purchase? Is this a one-time purchase or is there an identified time period needed?
 - *On-going*

RE: Sole Source Designation—Thomson Reuters Westlaw Edge

Dear Ms. Palazzolo:

Thomson Reuters is pleased to provide you with information concerning Westlaw. The purpose of this letter is to confirm that Thomson Reuters is the sole source provider for the exclusive content, features, and services listed herein.

West Publishing Corporation, a Thomson Reuters business, is the foremost provider of integrated information solutions to the U.S. legal market and has been providing research materials to the legal and professional community for more than 145 years.

Our newest offering, Westlaw Edge, provides the next generation of legal search, the most advanced citator service, the easiest way to see statutory changes, and integrated litigation analytics, all powered by state-of-the-art artificial intelligence and built upon more than 100 years of editorial enhancements.

Westlaw Edge provides access to the following exclusive features:

- **Quick Check** – Upload up to six documents, and Quick Check will produce a report that includes recommendations for highly relevant authority that was not cited, a list of cited authority from within the document(s), and a side-by-side comparison between case quotes and the cited case language on Westlaw Edge. When analyzing an opponent's brief, in addition to identifying highly-relevant cases your opponent failed to cite, Quick Check will surface and identify highly-relevant authority that contradicts your opponent's cited authority.
- **WestSearch Plus**—Find immediate answers to thousands of types of legal questions and dynamically filter your results to only the most relevant resources. Only WestSearch Plus has sophisticated typeahead functionality that produces suggested questions across thousands of legal topics. Westlaw Edge is the only legal research solution that includes a legal search engine built upon editorial assets such as the West Key Number System, Westlaw Headnotes, Notes of Decisions and more to present responsive text at the top of a result list rather than simply presenting a list with highlighted search terms.

- **KeyCite Overruling Risk**—Instantly know whether a case contains an implicitly invalidated statement of law. Westlaw Edge is the only legal research solution that warns researchers of implicitly overruled or abrogated cases even where the case does not cite to overruled authority. Westlaw Edge leverages state-of-the-art artificial intelligence, built upon more than 100 years of editorial enhancements, to provide significantly more accurate warnings.
- **Compare Capabilities**—Quickly understand how a statute or regulation has changed over time to easily see the most recent changes and compare any two versions instantly. Statutes Compare provides coverage for all statutory content with versions. In addition, Regulations Compare provides coverage for federal regulations as well as state regulations in 43 states plus District of Columbia. Users can download, print, or email the comparison. No other legal research solution provides this statutes compare functionality where a statute has been amended more than once in a single year. Also, only Compare Text enables you to compare text across many different content sets.
- **Litigation Analytics**—View detailed data-driven insights on judges, courts, attorneys, law firms, and case types across most practice areas to develop the best case strategy possible. Superior granularity to filter results by 28 different motion types and even more subtypes, as well as our exclusive, customizable “search within” option to enter your own filter within a filter. Litigation Analytics on Westlaw Edge provides more docket coverage, both federal and state, than any other provider, for the most reliable and targeted insights.
- **Concurring and Dissenting Opinion Shading**—Instantly know if your search language is in the cases’ main opinion, or rather in the concurrence or dissent.
- **Procedural Posture**—Our attorney editors identify the procedural motions, requests, and objections made in a case, along with the appellate posture of the case, if any.

Westlaw also provides legal researchers with access to exclusive resources, proprietary tools, and technology that no other research provider can offer, including:

- **Authoritative content**—With the most trusted primary law resources and leading analytical titles that are cited most often in court—all in one place and always available—researchers have access to all of the relevant information they need to answer a legal question.
- **Attorney-editor enhancements**—For more than a century, our attorney-editors have been analyzing, summarizing, and classifying the law. By developing proprietary innovations like the West Key Number System, KeyCite, headnotes, and Notes of Decisions, we make the content better organized and connected so it’s easier for researchers to find accurate answers quickly
- **Industry-defining technology**—Our research innovations, such as WestSearch, the award-winning mobile app, Folder Analysis, Research Recommendations, Law Summaries, and Graphical Statutes connect content and our proprietary analysis of the law in unparalleled ways so that legal professionals can conduct research faster and with more accuracy. Advanced, yet intuitive, easy-to-use functionality also helps researchers be more efficient.

EXCLUSIVE CONTENT

-  This content is redacted. The word "law" is visible at the end of the redacted area.

- **West Key Number System**—The West Key Number System is the master classification system of U.S. law and is widely regarded as the cornerstone of effective legal research. It helps users to quickly locate and identify cases with the same or similar legal concepts in any jurisdiction in the U.S.
- **National Reporter System**—Since 1879, West’s National Reporter System has compiled and organized federal and state case law into a cohesive body of law that can be researched within and across jurisdictions. West’s National Reporter System is available exclusively on Westlaw.
- **Editorial Enhancements**—For more than a century, West attorney-editors have been providing editorial enhancements to case law, statutes, and other legal materials, which includes providing the most exhaustive verification and correction process in the legal publishing and information industry. No other research service can match West’s editorial experience.
- **Graphical Statutes/Interactive Timeline**— Graphical Statutes revolutionizes statute research by charting legislative changes and linking related documents in an easy-to-read display. From a single screen, researchers can easily track changes in the law, locate relevant legislative history materials, read important case law, and check for possible amendments. Graphical Statutes is available for USCA and the statutes for select states.
- **Uniform Laws Annotated (ULA)**—The ULA provides an extensive reference to the text of uniform laws, prepared under the sponsorship of the National Conference of Commissioners on Uniform State Laws and the American Law Institute. ULA examines acts recommended for adoption in all states, pinpoints state variations, and includes annotations to cases decided in adopting jurisdictions.
- **Corpus Juris Secundum (CJS)**—CJS helps researchers understand unfamiliar areas of law by providing links to cases, statutes, regulations, key numbers, restatements, and more. CJS covers the full breadth and depth of the law, is cited to tens of thousands times by the courts, and is fully integrated with the West Key Number System.
- **Practical Law**—Practical Law provides legal know-how that gives lawyers a better starting point. Attorney-editors create and maintain thousands of up-to-date, practical resources. We go beyond primary law and traditional legal research to give lawyers the resources needed to practice more efficiently.

EXCLUSIVE FEATURES AND SERVICES

- **WestSearch**—WestSearch, a search engine designed specifically for law, incorporates over 140 years of proprietary analysis of the law and exclusive tools such as key numbers, KeyCite, headnotes, notes of decisions, indexes, and secondary sources to deliver relevant documents.
- **Law Summaries**—Westlaw provides specific answers to common types of legal questions by including elements of a cause of action, statutes of limitations and judicially defined terms. Users can click on links to authoritative court decisions and view questions appearing in a type-ahead display, with the answers appearing above the search results.
- **Research Recommendations**—Based upon documents the user has interacted with during their session, Westlaw will recommend additional primary and secondary law as well as Key Numbers.
- **Snapshots**—Westlaw gives snapshots of companies, legal professionals, and popular statutes.
- **Folder Analysis**—Westlaw makes suggestions, identifying the legal issues present through automatic analysis of cases and statutes in a folder. Users can view additional recommended cases and statutes, see a visual representation of issues, and navigate documents by issue.

- **Research Report**— Westlaw assembles professional reports, summarizing research in users' folders. Users can navigate reports with Table of Contents links, display all notations (including shared notes), and edit notes from the summary screen.
- **Visual Indicators**—Westlaw helps researchers easily determine when they've already viewed or worked with a document. Icons for Already Viewed, Folders, and Notes help researchers to avoid retracing their steps.

Thomson Reuters provides the intelligence, technology, and human expertise you need to find trusted answers in less time. I would be happy to further discuss Westlaw's capabilities with you. If you have any questions concerning this document or require additional information, please do not hesitate to contact me.

Sincerely,

David F. Owens

RE: Sole Source Designation—Thomson Reuters CLEAR

Dear Liz:

Thomson Reuters is pleased to provide you with information concerning CLEAR. The purpose of this letter is to confirm that Thomson Reuters is the sole source provider for the features and capabilities of CLEAR.

Thomson Reuters CLEAR is a comprehensive, online investigative platform that allows investigators and analysts to easily access billions of public records, publicly available information, and proprietary data for investigation and due diligence, including identity verification and risk assessment, screening, and monitoring. Through its easy-to-use, intuitive interface, CLEAR provides extensive and current data sources, functionality, and exclusive offerings that comprise the most comprehensive investigative database platform available.

West Publishing Corporation, a Thomson Reuters business, is the provider of CLEAR and the sole seller. No other online investigative research tool provides the following combination of data, features, and capabilities, as found on CLEAR.

KEY INVESTIGATIVE CONTENT—INCLUDING CLEAR EXCLUSIVES

- **Passport Checker**—By entering information from a subject’s passport, CLEAR users can compare the Machine-Readable Zone (MRZ) of the passport against the MRZ text generated from the passport information entered in CLEAR, to detect possible fraud.
- **Photo Images on Criminal Records**—CLEAR provides photo images on arrest and criminal records. When available from the sources, these images will be displayed on arrest records, sex offender records, and selected Department of Correction records.
- **Cell Phone Data**—CLEAR’s phone data is the most comprehensive, current, and accurate data in the industry. No service other than CLEAR offers gateway access to real-time, nationwide phone data. Through this real-time gateway, CLEAR provides comprehensive phone data, including detailed carrier contact information, for cell phones, landlines, and VoIP. Additionally, the Phone Records data set provides access to hundreds of millions of phone records, including more than 200 million cell phone numbers, as well as landlines and VoIP numbers.
- **Credit Reporting Bureaus**—CLEAR provides government investigators and analysts with regularly updated credit header information originating from all three of the major credit reporting bureaus,

including real-time header information from Experian and TransUnion in CLEAR's comprehensive reports. This results in reports that provide more current address information. Other critical address information provided by credit reporting bureaus includes the high-risk address alert, which identifies addresses that may be associated with a propensity for fraud.

- **Real-Time Vehicle Registration Data**—CLEAR offers real-time gateway access to vehicle registration data for 43 states, the District of Columbia, and Puerto Rico, providing up-to-date information on vehicles and their registered owners.
- **Global Business Data**—CLEAR provides comprehensive data on business entities, including small and privately held companies as well as corporations. Business data sources also include Worldbase, a global offering of more than 305 million companies. This content includes both U.S. company information and international company information from 220 countries.

ADVANCED FEATURES AND CAPABILITIES—INCLUDING CLEAR EXCLUSIVES

- **Alerts**—With CLEAR Alerts, users can automatically monitor the status of a selected attribute or subject, at a chosen time interval (e.g., daily, weekly, etc.). When either new information is added or information changes on the selected attribute or subject, CLEAR sends a notification to the user about the updated information.
- **Web and Social Media**—This search/dashboard tool provides access to social networking sites, blogs, watchlists, and other web sources.
- **Quick Analysis Flags**—Provides a checklist of data sets that can be potential red flags for a person or business, in order to help determine where to focus investigative efforts.
- **Address Map**—Shows the addresses associated with the subject (and which appear in the Vital Statistics section of search results) on an interactive map, via Google Maps.
- **Customizable Dashboard**—CLEAR's dashboard view allows users to get an immediate overview of a person or business and to quickly get a sense of potential risks associated with the subject. Users can customize the dashboard to ensure a focus on data that's most relevant to them.
- **Vital Statistics**—CLEAR results include this feature, which provides a convenient summary of the key attributes and information from multiple sources for a subject.
- **Linked Searching**—CLEAR offers the ability to search from within search results, making it fast and convenient to dive deeper into returned data. Linked searches include: address, business name, driver's license number, email address, person name, phone number, and Social Security number.
- **Entity Resolution**—CLEAR uses entity resolved database (ERD) technology to efficiently find all available public records pertaining to a subject. CLEAR's ERD technology uses multiple data elements and identifiers to match records and can overcome partial and incomplete data, misspellings, etc. CLEAR's ERD technology ensures that users obtain the full complement of available data on a subject.
- **Relevance Scores**—As results are returned in CLEAR, the most relevant records appear at the top of the result list.
- **Data Source Transparency**—In CLEAR, sources and their corresponding "reported dates" are provided with search results to provide maximum transparency to the user. The reported dates shown on records indicate the dates of the transaction or activity associated with the record at the source. In contrast, many providers of investigative database services list the date that the information was most recently updated in their database, and not when it was updated at the source. CLEAR shows

the actual date of update in the source data. Additional source details, such as detailed coverage information and update frequencies, are provided in CLEAR's Online Help, so that users can be assured of the credibility, reliability, and currentness of the data.

- **User Preferences**—CLEAR's Preferences account tool allows users to create preferences for conducting linked searches, permissible uses, user profile, display order of dashboard modules, and regarding data included in the Quick Analysis Flags and Associate Analytics modules.
- **Customized Reporting**—In CLEAR, customers have several customizing options available and can create report templates by setting report preferences, identifying the sections to include, and setting the sequence in which sections are displayed.
- **Workspace**—The Workspace feature allows customers to save selected results and report data indefinitely and provides the ability to generate link-chart and map views of the data. Visualizing information on multiple subjects in a link-chart view makes it easier for investigators to discern possible connections or associations between subjects/entities.
- **CLEAR Mobile Access**—CLEAR users can access critical data on their smart phones and other mobile devices. CLEAR Mobile does not restrict data returns, so users have access to the same results information that they would on their computers, including Vital Statistics in search results and comprehensive reports. CLEAR automatically detects a user's mobile device type and seamlessly logs in the user to a streamlined, mobile version.
- **Compatibility with Analytical Programs**—For investigators who need to conduct more powerful analysis on CLEAR results, CLEAR data can be readily integrated with i2 Analyst's Notebook and Palantir.
- **Google Maps Compatibility**—CLEAR provides mapping of address data, powered by Google Maps, in several areas, including the Address Map and Map Analytics modules, Workspace, and in Search Results, by selecting the map icon located beside the address.

I would be happy to further discuss with you the exclusive features, services, and content available for CLEAR. If you have any questions concerning this document or require additional information, please do not hesitate to contact me.

WEST PUBLISHING CORPORATION

Unique Entity ID L997DB4PEJL8	CAGE / NCAGE 89101	Purpose of Registration All Awards
Registration Status Active Registration	Expiration Date Jan 13, 2023	
Physical Address 610 Opperman DR Eagan, Minnesota 55123-1340 United States	Mailing Address PO Box 64833 Saint Paul, Minnesota 55164 United States

Executive Compensation

Registrants in the System for Award Management (SAM) respond to the Executive Compensation questions in accordance with Section 6202 of P.L. 110-252, amending the Federal Funding Accountability and Transparency Act (P.L. 109-282). This information is not displayed in SAM. It is sent to USAspending.gov for display in association with an eligible award. Maintaining an active registration in SAM demonstrates the registrant responded to the questions.

Proceedings Questions

Registrants in the System for Award Management (SAM) respond to proceedings questions in accordance with FAR 52.209-7, FAR 52.209-9, or 2.C.F.R. 200 Appendix XII. Their responses are not displayed in SAM. They are sent to FAPIIS.gov for display as applicable. Maintaining an active registration in SAM demonstrates the registrant responded to the proceedings questions.

Active Exclusions Records?

No
