FINDINGS OF FACT AND CONCLUSIONS OF LAW

Subject to the conditions of approval, the Boone County Commission finds and concludes in issuance of this permit that:

1. Limitations on the power of the firearms involved accompanied by the required modifications to the building should address any concerns related to the public health, safety, comfort, or general welfare. As conditioned, the establishment, maintenance, operation and use of the conditional use permit issued hereunder will not be detrimental to or endanger the public health, safety, comfort or general welfare, and
2. Nearby properties are either developed for significant commercial/industrial use or residential use. The property is located along a major interstate highway with the corresponding level of noise. With the required building modifications and as conditioned, the conditional use permit issued hereunder will not be injurious to the use and enjoyment of other property in the immediate vicinity of the property which is the subject matter of this permit with respect to the purposes already permitted by these regulations, and
3. As conditioned, the conditional use permit and authorized uses thereunder will not substantially diminish or impair property values of existing properties in the neighborhood surrounding the property which is the subject matter of this permit, and
4. Adequate infrastructure and utilities are available to serve this site. All necessary public facilities for use of the land subject to this permit are, or will be available if the conditions for issuance are satisfied, and
5. The conditional use permit issued hereunder and the authorized uses under such permit will not impede the normal or orderly development or improvement of surrounding property for the uses permitted within the zoning district, and
6. The shooting range will have its peak traffic flow on weekends and other off-peak hours, which will reduce the amount of peak hour traffic generated at this location. Furthermore, the proposed uses would have phased or staggered usage times. This would further break up the amount of traffic that is generated or using the adjacent roadways at any specific time. The grant of this conditional use permit will not hinder the flow of traffic or result in traffic congestion on the public roads and that adequate access points to the subject property from public streets are available, and
7. The uses authorized by this conditional use permit are otherwise in conformity with the regulations pertaining to the zoning districts in which the uses are located and that there is a public necessity for the issuance of the conditional use permit hereunder.

The Commission, by authorizing issuance of the conditional use permit hereunder, further concludes as a matter of law that issuance of the permit is proper under the zoning regulations of Boone County in effect at the time of issuance and the general statutes and laws of this state.

Additional Findings:

The County Commission further finds as fact in support of issuance of this conditional use permit the following to be true:

This facility can be operated such that it will have no impact on the neighborhood, existing utilities, property values or road access.
