

Build A Rain Barrel Workshop

Learn to build yourself a Rain Barrel and then take it home to install

Saturday, April 14 9am-12pm
Sunrise Estates Park Pavilion

\$20 each barrel
(**\$45 discount from retail**)

Register by Friday, April 6

Complete the registration form in this newsletter and send it to Steve Johnson, or go to the Sunrise Estates website (www.sunriseestates.net) to register online.

What is a rain barrel?

A rain barrel collects and stores rainwater from rooftops to use later for watering landscape plants and gardens, or washing the car. Water collected in a rain barrel would normally pour off your roof directly or flow through roof gutter downspouts and become storm water runoff.

U.S. Environmental Protection Agency Region 7, through the Missouri Department of Natural Resources, has provided partial funding for this project under Section 319 of the Clean Water Act. G11-NPS-12
